

# KING

KING

King is a modular lounge set consisting of seating solutions of various sizes. The collection features sofas, armchairs, square or round pouffes, ottomans as well as small bookshelves and coffee tables either combined with sofas or designed as stand-alone pieces.

The main structure of the furniture is made of board elements. The cuboid shape of all soft elements is additionally enhanced by distinctive stitching on the edges. Pillows filled with polyurethane foam of various densities, and feathers, contribute to the exquisite softness and comfort of use.

King is a collection designed with comfort in mind, creating a perfectly relaxing living room environment.
