

MUSE

MUSE

Muse is an extensive collection of comfortable modular sofas with a homely feel, comprising armchairs, an ottoman, a recliner and round pouffes, as well as a bench and coffee tables.

A distinctive feature of the collection is the soft geometrically shaped cushion in sofa and armchair backrests and armrests, sewn together with the body of the furniture. The seats are placed on legs made of oak wood in a natural colour or black-painted steel. Also available are matching tables of different shapes and heights. The table tops are made of solid oak.

In 2020, the collection was expanded by Piotr Kuchciński to include an armchair and a sofa with armrests featuring a steel frame covered in black leather.
